

How to update your blog

Now that you have created your blog, you need to re-access it. Here is how to do that:

Find it

Once logged in on your computer, open an Internet session.

You can type in your blog's url in the address bar of your Internet explorer. It looks like :

<http://yourname.blogspot.com>

Or if you do not remember your blog's url, open macliv.wordpress.com to find the link to Year 9 blog on the right.

Here is the link to Year 9 blog, which looks like this:

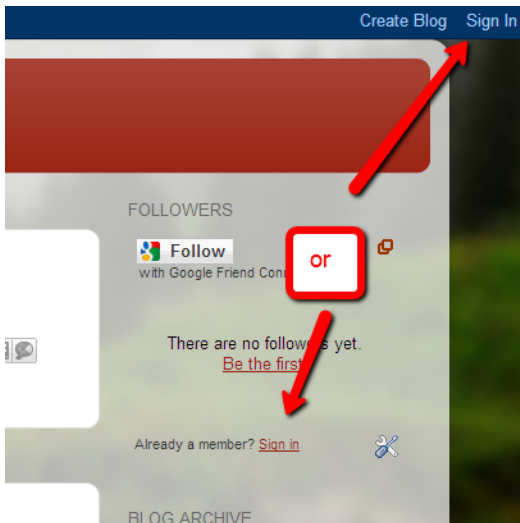

Then open your class tab and click on your name. It will open your blog as the whole world can view it.¹

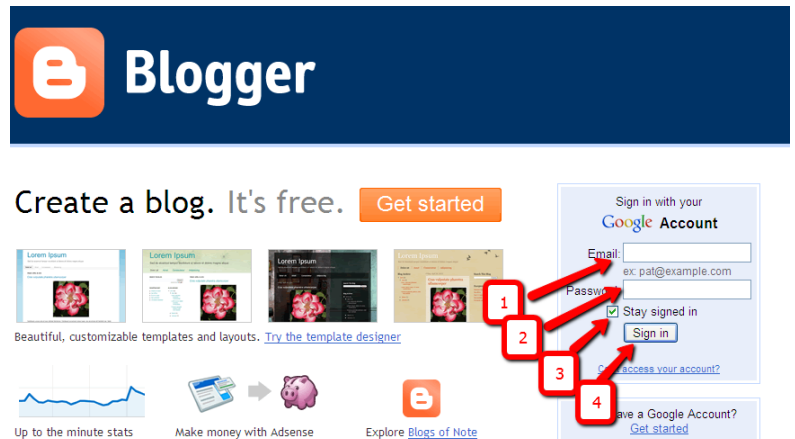

¹ If it does not open your blog, it means the librarian has not linked it yet. Go the library so that she can fix it.

Sign In

To add a post or change it, Sign in again. How? Click on Sign in:

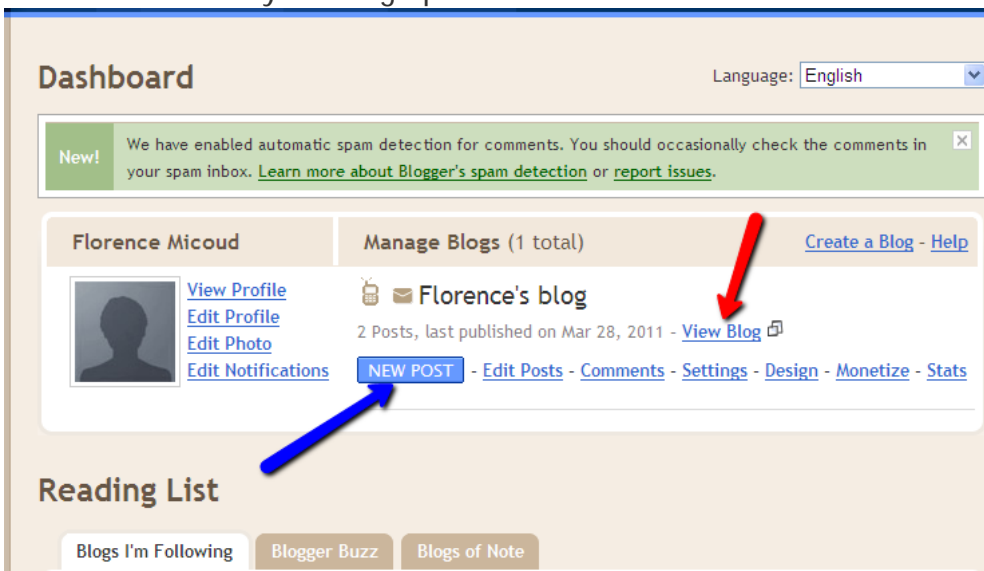

Then this page opens, use the Sign in with your google account box on the right to enter your details.

- 1- Enter your email: loginusername@mtaspiring.school.nz
- 2- Enter your password
- 3- Make sure the "Stay signed in" box is not ticked
- 4- Click on Sign in button

The dashboard of your blog opens:

Click on View Blog (red arrow) to view your blog
Click on New Post (blue arrow) to create a new post
Etc...
